## International Removals

### Challenge

VanOne faced operational and online challenges that impacted growth and competitiveness:

- **Driver Management Issues:** Difficulty in updating driver details and providing real-time updates.
- **Manual Process Inefficiencies:** Reliance on Excel sheets and manual workflows led to wasted time and resources.
- **Declining Organic Traffic:** Intense competition resulted in a significant drop in organic traffic in Q1 2024.
- **Reduced Sales:** Lower search engine rankings negatively affected sales.
- **Outdated Content:** Lack of fresh content and blog updates hindered online visibility.

Performance on search results

### Results

- **Efficient Operations:** Real-time updates improved driver management and reduced administrative overhead.
- **Traffic Recovery:** SEO efforts restored organic traffic to higher levels.
- **Higher SERP Rankings:** Improved visibility, generating more qualified leads.
- **Increased Engagement:** Regular content updates attracted more visitors and improved user engagement.
- **Google Search Results:** We are SERP 1 for '[removals to bulgaria](#)', '[Removals to Estonia](#)', '[Removals to Hungary](#)', and other european removals related keywords on the Google UK search results page.

### Solution

To address these challenges, Asset Digital implemented a comprehensive digital transformation strategy:

- **Mobile App for Drivers:** Streamlined operations with real-time updates and efficient tracking.
- **Web System Automation:** Automated removal service processes to replace manual workflows and enhance efficiency.
- **SEO and Backlink Strategy:** Improved rankings through targeted SEO and backlink campaigns.
- **Optimized Service Pages:** Enhanced service pages to drive targeted traffic.
- **Content Publishing Plan:** Consistent updates and new content to boost engagement and visibility.
